INTRODUCTION AND CONSENT

Hello, my name is _____ and I work with the African Population and Health Research Centre. We are conducting a survey to better understand the health and well-being of older people in this community. Specifically we would like to know about your health, your economic challenges, the care and support you need or receive. We will also take some measurements like your weight, height, width of your waist and blood pressure. The results of this study will be presented to institutions, including the government, that are involved in decision making and provision of services targeted at older people with the intention that they will use the information to improve the wellbeing of older people. All the responses you provide are confidential and will be used for the purposes of this study only. This interview is not expected to cause you any harm or discomfort. However, if you feel uncomfortable with certain questions you can choose not to answer them. We, however, hope you will participate in this survey since your views are very important. You will not be paid to participate in this study, however, if you are found to have high blood pressure you will be supported to get medical help. This interview will take about half an hour of your time.

1.8 Do you accept to participate in the study? (Y=YES; N=NO; IF 'YES' SKIP TO 1.10) ☐

7.0 HEALTH STATE DESCRIPTIONS-WHODAS 12 AND WHOQoL

Now I would like to review the different functions of your body. When answering these questions, I would like you to think about the last 30 days, taking both good and bad days into account. When I ask about difficulty, I would like you to consider how much difficulty you have had, on average, in the last 30 days, while doing the activity in the way that you usually do it. By difficulty I mean requiring increased effort, discomfort or pain, slowness or changes in the way you do the activity. I would like you to provide me your response whether you have No difficulty, Mild difficulty, Moderate difficulty, Severe difficulty or Extreme difficulty regarding the following functions of your body. By moderate difficulty I mean between mild and severe difficulty.

7.2 In general, how would you rate your health today, would you say your health is Very good (1), Good (2), Moderate (3), Bad (4), or Very bad (5)?
