PURPOSE OF STUDY:

Hello, my name is _____ and I work with the African Population and Health Research Center. The purpose of this interview is to gain an understanding of the experiences of women in this community on the care given to their children soon after birth, as well as their sexual behaviour at this period and their future intentions regarding child bearing. The African Population and Health Research Center, with funding from the Wellcome Trust, is undertaking this study. All women who have delivered a live birth in Korogocho and Viwandani since September 2006 have been selected.

PROCEDURES:

We last visited you in July/September 2007 when we asked about your family and took your child's height and weight measurements. We are here again today to ask some more questions about how you and your family are getting along. You are among more than 600 women who will be interviewed. If you agree to take part in this study, you will be asked questions about yourself, and the health of your child. This interview will take about thirty minutes of your time. We shall also take height and weight measurements of your child. You will not be paid any money by taking part in this study. We will visit you later in the year to ask some more questions and measure your child.

RISKS/DISCOMFORTS:

This interview is not expected to cause you any harm but if you feel uncomfortable with some of the questions you can choose not to answer any question(s) but can decide to continue with the interview.

BENEFITS:

The results of the study may help the Government of Kenya and other organisations to improve health services in this and other districts. The chiefs and the community will be informed of the findings when the study is completed.

CONFIDENTIALITY:

Your responses will be private and confidential. They will not be made available to other persons in this district. The information you give will be kept under lock for three years at the African Population and Health Research Center after which the forms will be destroyed.

VOLUNTARINESS:

Your participation is voluntary and you have the right to stop the interview at any time without any problem

WHOM TO CONTACT:

If you want to talk to anyone about this research study, or if you think you have been treated unfairly or joining this study has hurt you, contact Dr. Eliya Zulu, Research Director, Africa Population and Health Research Center at telephone number 2720400/1/2. I will leave a copy of this form with you for future reference.

If you agree to participate in this study please sign your name below.
